

Gasoline Engine High-Pressure Washer

This high-pressure washer is powered by a robust gasoline engine, suited for industrial and agricultural use. It features a triplex plunger pump with adjustable pressure settings and is mounted on a durable metal frame.

Overview

Industrial-Grade Cleaning Power

This gasoline engine high-pressure washer is engineered for demanding industrial and agricultural cleaning environments. Built on a durable metal frame for maximum stability, the unit features a high-performance triplex plunger pump capable of handling rigorous daily tasks. With adjustable pressure settings and integrated safety features, it provides a reliable, portable solution for heavy-duty water jet cleaning.

Technical Specifications

Pump Mechanism	Triplex Plunger Pump
Pressure Adjustment	Yes
Safety Features	Pressure Gauge, Safety Valve

Build Quality

Frame Construction	Durable Metal Frame
