

Gasoline Engine High Pressure Washer

This high-pressure washer provides a reliable cleaning solution for various applications. Powered by a gasoline engine, it delivers consistent performance and mobility.

Overview

High-Performance Cleaning Solution

This gasoline-powered high-pressure washer is engineered for demanding agricultural, industrial, and commercial cleaning tasks. Featuring a robust 4-stroke, air-cooled engine, it provides the consistent power and mobility required for deep cleaning and surface preparation. With dual-mode operation capabilities, users can adjust performance parameters to suit specific cleaning requirements, ensuring efficiency and durability in various environments.

Engine Specifications

Continuous Output

3.8 hp

Power

Model	DJ270
Engine Type	OHV, 4-stroke, Air-cooled, Gasoline
Displacement	163 cc

Performance

Operating Modes

Speed (rpm)	Suction Vol. (L/min)	Pressure (kg/cm ²)
800	34	35
1400	50	10

Physical Dimensions

Dimensions (LxWxH)	930 x 320 x 520 mm
Dry Weight	44 kg
