

Gasoline Engine Oil, 1L Bottle, API SN ACEA A5

This engine oil provides maximum output power and high oxidation stability. It offers optimum heat resistance and prevents engine wear.

Product Overview

High-Performance Gasoline Engine Oil

This premium gasoline engine oil is engineered for maximum output power and superior operating performance. Formulated with advanced additives, it ensures high oxidation stability and an extended service life for your engine. Designed to offer optimum heat resistance and minimize wear, this oil provides efficient protection even under demanding conditions.

Technical Specifications

Viscosity Grade	0W/40
Industry Standards	API SN, ACEA A5
Packaging Size	1 L

Performance Features

Key Benefits

- Low consumption
- Maximum output power
- High oxidation stability
- Optimum heat resistance
- Engine wear prevention
- High bearing efficiency
