

# Gasoline Engine Spare Parts

These are replacement parts for gasoline engines. The components include parts for fuel systems, starting, and engine repair.

## ADDITIONAL IMAGES

## Overview

### Comprehensive Gasoline Engine Spare Parts

This extensive collection of high-quality spare parts is designed to support the maintenance and repair of various gasoline engine models, including EY20, EY28, MZ175, MZ200, MZ360, and the 154F/156F series. The selection covers essential components from internal engine mechanics to fuel, ignition, and starting systems, ensuring full serviceability for professional applications. Each component is precision-engineered to meet demanding operational standards for reliable performance in general-purpose engine equipment.

## Supported Engines

### Engine Compatibility

EY20, EY28, MZ175, MZ200, MZ360, 152F, 154F, 156F

## Engine Internal Components

### Mechanical Core Parts

- Pistons (5.0HP/7.0HP/188)
- Piston Rings
- Connecting Rod Assemblies
- Crankshafts (A/B/C/D/E/F Types)
- Camshaft Assemblies (Iron)
- Intake & Exhaust Valves
- Rocker Arm Assemblies
- Valve Lifters
- Push Rods

## Starting System

### Starting System Parts

Component	Material Options
Recoil Starter	Thick/Thin
Starter Pulley	Iron/Plastic
Starter Repair Kit	Iron/Plastic
Driving Plate	Iron/Plastic
Bearing Plate	Iron/Plastic

## Technical Specifications

### Standard Oil Seal Sizes

**25 mm**

Oil Seal A

**41.25 mm**

Oil Seal A Width

**35 mm**

Oil Seal B

**52 mm**

Oil Seal B Width
