

Gasoline Generator

This gasoline generator is designed for reliable power output in various applications. It features a robust engine and is suitable for powering tools, appliances, and other electrical equipment during power outages or in remote locations.

Product Overview

Reliable Power Solution

The LGE6500E is a gasoline-powered generator designed for dependable power output in various applications. Featuring a robust single-cylinder, four-stroke engine, it provides a stable power supply suitable for both residential and commercial use. Its durable construction and compact design ensure easy transport and storage, making it an ideal choice for powering tools and appliances during outages or in remote locations.

Engine Specifications

Engine Model	LG390
Engine Type	Single-cylinder, Air-cooled, Four-stroke, OHV
Displacement	389
Rated Power	13 hp

Performance

Key Performance Metrics

5 KW

Max Power

3600 RPM

Speed

74 dB

Noise Level

Fuel Tank Capacity	12 L
--------------------	------

Electrical Output

Rated Voltage	230 V
Rated Frequency	50 Hz

Operation & Dimensions

Start Type	Electric Start
Dimensions (L x W x H)	700 x 530 x 560 mm
