

Gasoline Generator Set with 220V Output

This gasoline generator set provides a robust and reliable power solution for various applications. It delivers consistent AC 220V power and includes a circuit breaker for safety and monitoring instruments.

Overview

Reliable Power Generation

This gasoline generator set is engineered to provide consistent and dependable AC 220V power for diverse residential and commercial applications. Built with a robust frame and high-quality copper wiring, the unit ensures enhanced durability and operational performance. It features a forced air-cooled, 4-stroke OHV engine designed for efficiency and steady output, making it a versatile solution for your power needs.

Electrical Output

Rated Output

1 KW

Rated Output

1.1 KW

Max Output

Voltage & Frequency 220V / 50Hz

Rated Current 22.7 A

Engine Specifications

Engine Configuration

Feature	Specification
Engine Model	TE390E
Type	Forced air-cooled, 4 stroke, OHV
Displacement	389 cc
Max Output	13 HP
Ignition System	Non-contact transistorized ignition (T.C.I)
Oil Capacity	1.1 L

Operational Features

Noise Level (at 7m)	74 dB
Starting System	Electric
Certifications	CE, ISO 9001:2000

Physical Dimensions

Package Dimensions (L x W x H)	695 x 530 x 570 mm
Gross Weight	95 Kg

Logistics

20' FCL Capacity	135 pcs
