

Gasoline Generator Set

This gasoline generator set is engineered to deliver a dependable source of electricity. It incorporates automatic voltage regulation (AVR) and multiple AC output options.

Overview

Reliable Power Generation

This gasoline generator set is engineered for robust performance and versatile power output. Featuring a 4-stroke, forced-cooled engine, it provides a dependable energy source suitable for various professional and industrial applications. With dual voltage capabilities and an electric starting system, this unit is designed to meet demanding power requirements efficiently.

Engine & Performance

Engine Model	KP460
Engine Type	4-stroke, forced-cooled, single-cylinder
Displacement	460 ml
Ignition System	Non-contact transistorized magneto (TCI)
Starting System	Manual, Electric

Power Output

Power Performance

8 KVA

Rated Power (220V)

9 KVA

Rated Power (380V)

8.5 KVA

Max Power (220V)

9.5 KVA

Max Power (380V)

Rated Voltage	220/380
Rated Frequency	50 Hz

Operational Specs

Fuel Tank Capacity	30 L
Fuel Consumption	3.2 L/hr
Continuous Operating Hours	9 hr
Engine Oil Capacity	1.1 L
Noise Level (at 7m)	80 dB

Logistics

Container Loading Capacity

Container Type	Quantity
20GP	122
40GP	254
40HQ	254

Dimensions & Weight

- Carton Dimensions: 730 x 565 x 590 mm
- Net Weight: 87/90 kg
