

Gasoline Generator

This gasoline-powered generator provides a reliable power supply. It features a durable construction with a protective frame, ensuring longevity and resistance to damage.

Overview

Reliable Power Generation

This EP Series gasoline generator is designed for consistent and dependable power supply in demanding environments. Featuring a 4-stroke, air-cooled engine, it provides a maximum output of 3.3 kW, making it an excellent solution for construction sites, backup power, or outdoor operations. Built with a durable protective frame and integrated safety features like overload protection, this unit ensures longevity and operational security for professional users.

Electrical Output

Max AC Output

3.3 kW

Max Power

3 kW

Continuous Output

Voltage Options	115V, 230V, 220V, 240V
DC Output	12V / 8.3A

Engine Specifications

Engine Type	OHV 4-stroke, air cooled, Single-cylinder
Displacement	242 cc
Engine Speed	3000 rpm
Starting System	Recoil, Electric

Performance & Capacity

Fuel Tank Capacity	25 L
Continuous Runtime	13 h
Noise Level	69 dB(A)

Physical Dimensions

Physical Specs

Attribute	Value
Dimensions (LxWxH)	685 x 510 x 540 mm
Net Weight	68 kg
Gross Weight	70 kg
