

Gasoline Plate Compactor

This plate compactor features a folding handle for easy transportation and storage. Its gasoline power system delivers powerful force for a better compaction effect.

Overview

High-Performance Gasoline Plate Compactor

This gasoline-powered plate compactor is designed for professional-grade soil compaction, offering excellent force and efficiency for construction and landscaping tasks. It features a self-cleaning open plate design and a sealed belt cover to protect internal components from debris. With its folding handle and low-vibration operation, this machine balances high compaction performance with ease of transport and operator comfort.

Key Features

Key Features

- Folding handle for easy transportation and storage
- Open plate design for self-cleaning
- Sealed belt cover prevents sand and soil ingress
- Low vibration design for increased operator comfort
- High compaction force gasoline power system

Technical Specifications

Engine Power

163 cc

Engine Displacement

5.5 HP

Horsepower

Compaction Performance

Metric	Value
Centrifugal Force	11000 N
Exciter Speed	5500 vpm
Compaction Depth	25 cm
Travel Speed	25 m/min

Physical Dimensions

61 kg

Operation Weight

Plate Size

530 x 370 mm

Accessories

Water Sprinkler Kit

Paving Pad Kit

The QTP9142 plate compactor supports optional attachments like water sprinkler kits and paving pads for versatile job site application.

Optional Accessories

Water Sprinkler Kit • Paving Pad Kit
