Product Overview

High-Performance Compaction

This gasoline-powered plate compactor is engineered for efficient soil compaction in construction and landscaping projects. It features a robust 196cc engine delivering high centrifugal force, making it ideal for granular soils, asphalt, and paving stones. Designed with operator comfort and convenience in mind, the unit includes a foldable handle for easy transport and a low-vibration system to reduce fatigue during extended use.

Technical Specifications

Engine Displacement	196 cc
Engine Power	6.5 HP
Centrifugal Force	13000 N
Exciter Speed	5500 vpm
Operation Weight	82 kg

Design & Features

Water Sprinkler Kit

Paving Pad Kit

The plate compactor features a robust steel base plate and a foldable handle for efficient on-site storage.

Key Features

- Folding handle for easy transportation and storage
- Open plate design for self-cleaning
- Sealed belt cover to prevent sand and soil intrusion
- Low vibration system
- High compaction performance

Plate Size	520x445 mm
Optional Accessories	Water Sprinkler Kit, Paving Pad Kit
