

Gasoline Plate Compactor with 560x520 mm Plate

This plate compactor utilizes a gasoline power system for a more powerful force and better compaction effect. It features a folding handle for easy transportation and storage.

Overview

Professional Grade Compaction

This gasoline-powered plate compactor is engineered for high-performance compaction in construction and landscaping projects. Featuring a 6.5HP engine and a 560x520 mm plate, it delivers consistent force for soil, sand, and asphalt applications. The unit is designed with operator comfort in mind, utilizing low-vibration technology and a foldable handle for efficient transport and storage.

Performance Metrics

Centrifugal Force

25000 N

Centrifugal Force

Exciter Speed	5500 vpm
Compaction Depth	35 cm
Travel Speed	32 m/min

Engine & Power

Engine Specifications

- 196 cc displacement
- 6.5 HP power output
- Gasoline powered

Design & Construction

Water Sprinkler Kit

Paving Pad Kit

The plate compactor features a durable base plate and is compatible with optional accessories like a water sprinkler kit and paving pad kit.

Plate Size	560x520 mm
Operating Weight	107 kg
Key Features	Folding handle, Self-cleaning open plate, Sealed belt cover, Low vibration
