Product Overview

Professional Compaction Performance

This gasoline-powered plate compactor is engineered for high-efficiency soil and asphalt compaction in construction and road maintenance projects. It features an open plate design for self-cleaning and a sealed belt cover to protect internal components from debris. With a foldable handle, it offers both low-vibration operation for operator comfort and easy storage for transport.

Technical Specifications

Engine Power

163 cc

Displacement

5.5 HP

Power

Compaction Performance

Metric	Value
Centrifugal Force	11000 N
Exciter Speed	5500 vpm
Compaction Depth	25 cm
Travel Speed	25 m/min

Physical Dimensions

62 kg

Operation Weight

Plate Dimensions

515 x 390 mm

Features

Water Sprinkler Kit

Paving Pad Kit

The compactor features a vibration-dampened handle and is compatible with optional water sprinkler and paving pad kits.

Key Features

- Folding handle for compact storage
- Open plate design for self-cleaning
- Sealed belt cover
- Low vibration operation
