

Gasoline Plate Compactor with Folding Handle

This plate compactor features a gasoline power system for powerful compaction. Its folding handle allows for easy transportation and storage.

Product Overview

High-Performance Compaction

This gasoline-powered plate compactor is engineered for demanding construction, landscaping, and road maintenance tasks. It features a robust 6.5HP engine that delivers powerful compaction force, ensuring optimal results on soil and asphalt. Designed with operator comfort and efficiency in mind, the unit includes a folding handle for easy transport and a sealed belt cover to protect internal components from debris.

Technical Specifications

Engine Power

6.5 HP

Horsepower

196 cc

Displacement

Compaction Performance

Metric	Value
Centrifugal Force	25,000 N
Exciter Speed	5,500 vpm
Compaction Depth	35 cm
Travel Speed	32 m/min

Physical Dimensions

Plate Dimensions	590 x 500 mm
Operation Weight	111 kg

Features

The plate compactor is designed for versatility, with optional kits available for dust control and delicate surface work.

Key Features

- Folding handle for easy transportation and storage
- Open plate design for self-cleaning
- Sealed belt cover to prevent sand and soil ingress
- Low vibration operation

Optional Accessories

Water Sprinkler Kit, Paving Pad Kit
