Product Overview

High-performance gasoline compactor featuring a 196cc engine and durable steel base plate.

Professional Compaction Performance

This gasoline-powered plate compactor is designed for efficient soil compaction and asphalt preparation in demanding job site conditions. It features a robust 196cc engine delivering high compaction force, ensuring consistent results for road construction, landscaping, and foundation work. The unit is engineered for operator comfort with low-vibration operation and a folding handle that simplifies transportation and storage.
