

Gasoline Power Generator

This gasoline-powered generator is designed for reliable power generation in various settings. Its durable frame houses a robust engine, making it suitable for home backup, construction sites, and outdoor events.

Overview

Reliable Portable Power

This gasoline-powered generator is designed to provide stable and efficient energy for various professional and domestic applications. Built with high-quality copper wiring to ensure optimal power transfer, the unit features a robust 4-stroke OHV engine. Its durable construction makes it an ideal solution for home backup, construction sites, and outdoor power requirements.

Technical Specifications

General Specifications

| Parameter | Value |
|--------------------|--------|
| Frequency | 50 Hz |
| Voltage | 220 V |
| Engine Model | GX160 |
| Displacement | 163 cc |
| Max Engine Power | 5.5 HP |
| Noise Level (7m) | 67 dB |
| Fuel Tank Capacity | 12 L |
| Oil Capacity | 0.6 L |

Operational Features

Engine & Ignition

- 4-stroke OHV Engine
- Forced air-cooled system
- Manual start system
- Non-contact transistorized ignition (T.C.I)

Compliance & Quality

Quality Standards

ISO 9001:2000, CE Certified, 100% Copper Wiring

Logistics

Shipping and Handling

| Attribute | Specification |
|---------------------|--------------------|
| Package Dimensions | 530 x 430 x 465 mm |
| Gross Weight | 39 Kg |
| 20ft Container Load | 275 pcs |
