Product Overview

Professional Soil Cultivation

This gasoline-powered tiller is a robust and versatile agricultural machine designed for efficient soil preparation and cultivation. Engineered for small to medium-sized farms and gardens, it features adjustable tilling depth and width to accommodate various soil conditions and specific crop requirements. With its ergonomic design and durable tine construction, this tiller enhances productivity while simplifying complex soil aeration and weed control tasks.

Technical Specifications

Engine Type	Gasoline OHV
Key Features	Adjustable Tilling Depth, Aeration Capability, Weed Control, Ergonomic Controls

Safety & Operation

Safety Mechanisms

- Protective safety shield
- Engine shut-off mechanism
- Emergency stop system
