

Gasoline Powered 5.5 HP Portable Generator

This gasoline-powered generator provides a portable power solution. It features a 5.5 HP engine, voltmeter with AVR2, circuit breaker, and oil alert system.

Product Overview

Reliable Portable Power Solution

This gasoline-powered portable generator offers a robust and reliable power source for professional on-site applications. Equipped with a 5.5 HP 4-stroke air-cooled engine, it features advanced electronic ignition and integrated automatic voltage regulation (AVR) for stable power delivery. Safety is prioritized with built-in circuit breakers, an oil alert system, and a durable frame construction designed for demanding field use.

Generator Performance

Performance Overview

3 kW Max Output	16.5 h Max Running Time	5.5 HP Engine Power
---------------------------	-----------------------------------	-------------------------------

Performance Specifications

Feature	YL1500F	YL2500F	YL3500F
Rated Output (kW)	1.3	2.0	2.5
Max Output (kW)	1.5	2.2	2.8
Engine Power (kW)	3.1	3.1	3.8
Weight (N.W kg)	36	39	44

Engine Details

Engine Configuration	Single cylinder, 4-stroke, Forced air cooled
Fuel Tank Capacity	15 L

Safety & Compliance

Built-in Safety Systems

- Oil Alert System
- Circuit Breaker Overload Protection
- AVR Voltage Regulation
- Non-contact Transistorized Ignition
