

Gasoline Powered Brick and Concrete Cutter

This robust saw is designed for cutting concrete, brick, and stone on job sites. It features a gasoline engine for reliable performance and includes a water cooling system to reduce dust and prolong blade life.

Product Overview

Robust Gasoline-Powered Cutting Solution

The CBC-14-R is a versatile and heavy-duty saw engineered for precision cutting of concrete, brick, and stone. Powered by a reliable gasoline engine, this unit delivers consistent performance on job sites where electricity is unavailable. Designed for durability and ease of use, it features a sturdy, wheeled frame for portability and an integrated water cooling system to minimize dust and extend blade longevity.

Technical Specifications

Compatible Blade Sizes

- 254mm (10")
- 305mm (12")
- 356mm (14")

Dimensions (L x W x H)

960 x 450 x 730 mm

Cutting Length

70-120 mm

Performance

Max Power Output

4.2 kW

Kilowatts

5.7 PS

Horsepower

Cutting Depth Rate

420 j/h

Engine Model

Robin EX17

Features

Key Features

Gasoline Powered, Water Cooling System, Adjustable Cutting Table, Emergency Stop Switch, Wheeled Frame
