

# Gasoline Powered Chain Saw

This gasoline-powered chain saw is designed for professional use. It features durable construction and a powerful engine for efficient cutting.

## Product Overview

### Professional Performance

The gasoline-powered chain saw is engineered for demanding professional tasks, offering high-performance cutting capabilities. Its robust construction ensures durability in harsh working environments while integrating essential safety features for operator protection. The ergonomic design focuses on user comfort, effectively reducing fatigue during extended periods of operation. This versatile tool is ideally suited for forestry work, including tree felling, branch pruning, and firewood preparation.

## Key Features

### Featured Metrics

**2000 cc-class**

Model Capacity

### Primary Applications

Tree Felling, Branch Pruning, Firewood Cutting

## Safety & Handling

### Ergonomics

- Ergonomic handle design
- Reduced vibration system
- Balanced weight distribution

### Safety Standards

Integrated Safety Guards • Professional Grade
