

Gasoline Powered Chainsaw

This gasoline chainsaw is a cutting tool designed for both professional and home use. It features a robust engine, durable cutting bar, sharp chain, and ergonomic handles.

Overview

Professional Performance and Reliability

This high-performance gasoline-powered chainsaw is engineered for both professional heavy-duty applications and demanding home use. It features a robust engine designed for efficient cutting of timber, pruning, and firewood processing. The unit is balanced with an ergonomic design to ensure user comfort during extended operation, while integrated safety mechanisms provide essential protection for the operator.

Performance

Key Performance Indicators

52 cc

Engine Displacement

Features

Primary Use Cases

- Tree Felling
- Branch Pruning
- Firewood Cutting

Safety Systems

Chain Brake, Throttle Lock

Design

Operational Design

Equipped with ergonomic handles to reduce operator fatigue during long-duration cutting tasks.
