

# Gasoline Powered Cold Water Pressure Washer

This gasoline-powered pressure washer delivers ultra-high pressure cold water cleaning. It features adjustable pressure and includes a high-pressure spray gun with a safety catch and five quick-connect nozzles.

## ADDITIONAL IMAGES

## Overview

### Professional-Grade Cleaning Power

This gasoline-powered cold water pressure washer is engineered for heavy-duty industrial and commercial cleaning applications. Featuring a robust 13HP engine and delivering up to 250BAR of pressure, it effectively removes stubborn grime and dirt from demanding surfaces. Designed for durability and ease of use, the unit includes ceramic plunger technology and a reliable direct-drive crankshaft pump.

## Performance Specifications

### Maximum Pressure

**250 BAR**

Max Pressure

Engine Power	13 HP
Water Flow Rate	15 L/MIN
Engine Speed	3400 RPM

## Technical Details

Engine Type	Single cylinder, air-cooled, four-stroke OHV
Pump Mechanism	Direct drive crankshaft link pump with copper cylinder block and ceramic plunger

## Included Accessories

### Standard Equipment

- 10M High pressure pipe
- High pressure spray gun with safety catch
- Low pressure suction joint
- Water inlet pipe and components
- Pressure adjustable valve
- Low lubrication protection device

### Included Nozzles

0°, 15°, 25°, 40°, Suction

## Design & Build

### Mobility Features

Ten-inch solid tires for rugged terrain

## Optional Add-ons

### Available Upgrades

Foam generator • Pipe coiler
