

Gasoline Powered Concrete Power Trowel

The gasoline powered concrete power trowel is designed for finishing and smoothing concrete surfaces. It features a robust gasoline engine for reliable power and an adjustable handle for operator comfort and control.

Product Overview

Professional Concrete Finishing

This gasoline-powered concrete power trowel is engineered for high-performance surface finishing and smoothing. Designed to deliver a professional-grade result, it features a robust engine and a safety-enclosed rotating assembly for reliable operation on floors and slabs. The adjustable handle ensures operator comfort, making it an essential tool for achieving smooth, durable concrete surfaces in construction projects.

Performance & Features

Ideal Applications

- Concrete Floors
- Concrete Slabs
- General Surface Finishing

Power Source	Gasoline Engine
Key Features	Surface Finishing, Concrete Smoothing, Adjustable Handle, Safety Cage
