

Gasoline Powered Garden Tiller

This gasoline-powered tiller is designed for efficient soil preparation. It features adjustable tilling depth and durable tines for breaking up compacted soil.

Product Overview

Efficient Soil Cultivation

This gasoline-powered garden tiller is designed for effective soil preparation in vegetable gardens and flower beds. Featuring a robust 163cc OHV 4-stroke engine, it provides the necessary power to break up compacted soil with ease. The adjustable tilling width and depth settings ensure versatility for various gardening tasks, while the compact design and recoil starter make it highly maneuverable and user-friendly for professional and hobbyist growers alike.

Performance Metrics

Engine Output

5.5 HP

Max Output

3600 rpm

Rated Speed

Engine Specifications

- Engine Type: OHV 4-stroke
- Displacement: 163cc
- Start Mode: Recoil starter
