

Gasoline Powered Generator

This gasoline-powered generator provides a reliable power supply. Its durable construction delivers stable and consistent electricity for diverse applications.

Overview

Reliable Power Generation

The LGE6500E is a robust gasoline-powered generator engineered for consistent and stable electricity supply. Featuring a powerful 13 HP engine and an electric start system, this unit is built for efficiency and ease of use. Its compact design and durable construction make it an ideal solution for backup power needs, construction sites, and outdoor operations.

Engine Specifications

Engine Model	LG390
Engine Type	Single-cylinder, Air-cooled, Four-stroke, OHV
Rated Power	13 hp
Displacement	389

Performance

Key Performance Metrics

5 KW

Max Power

230 V

Rated Voltage

50 HZ

Rated Frequency

Noise Level	74 dB
-------------	-------

Operation

Starting System	Electric Start
Fuel Tank Capacity	12 L

Physical Dimensions

Dimensions and Weight

Attribute	Value
Dimensions (L x W x H)	700 x 530 x 560 mm
