

Gasoline Powered Hedge Trimmer with Rotating Handle

This gasoline powered hedge trimmer features a bison-style engine. It is equipped with a multi-function rotating handle and a newly designed gear case.

Product Overview

Professional Performance Hedge Trimmer

This gasoline-powered hedge trimmer is engineered for reliability and user comfort, featuring a high-precision gear case with imported bearings for an extended service life. The lightweight design, achieved through a magnesium alloy wheel case and hollow-out blade construction, ensures reduced fatigue during prolonged operation. Additionally, the multi-function rotating handle allows for seamless adjustments to suit various working conditions.

Technical Specifications

Power Output

0.65 kW

Power

0.88 hp

Power

Engine Model	1E32FL-S
Displacement	22.5 cm ³
Cutting Width	750 mm
Reduction Ratio	4.1:1 (58:14)

Physical Attributes

Net Weight	5.8 kg
Fuel Tank Capacity	0.5 L
Package Dimensions	1100 x 270 x 290 mm

Features

Key Features	Rotating Handle, Magnesium Alloy Case, Hollow-out Blade, High-precision Bearings
