

Gasoline Powered High Pressure Washer

This gasoline powered high-pressure washer delivers high pressure for effective removal of dirt, grime, and debris. The durable frame and wheel design ensure portability and stability during operation.

Product Overview

High-Performance Cleaning Solution

This gasoline-powered high-pressure washer is engineered for demanding cleaning tasks, providing effective removal of dirt, grime, and debris from various surfaces. Powered by a reliable 6.5HP 168F-1 engine, it combines high-pressure output with a durable frame design. Built for both professional and home applications, the unit features intuitive controls and excellent portability for versatile use.
