Overview

Professional Performance

This gasoline-powered high-pressure washer is designed for demanding cleaning tasks, offering reliable performance with a 5.5HP engine and an efficient axial pump. It features variable pressure control, allowing users to adjust the output to suit specific cleaning needs, from delicate surfaces to stubborn stains. With a compact design and self-suction capability, it provides both versatility and ease of use for professional applications.

Performance Metrics

Rated Pressure	15 Mpa
Maximum Pressure	17 Mpa
Flow Rate	8.3 L/min

Engine & Power

Engine Type	HH168
Horsepower	5.5 HP
Engine Displacement	163 cc
Fuel Tank Capacity	3.6 L

Technical Specifications

Pump Type	Axial pump
Ambient Temperature Range	0°C - 60°C

Physical Dimensions

Gross Weight	28.5 kg
Dimensions (L x W x H)	495 x 460 x 505 mm

Features

Key Features	Self-suction function, Overheat protection, Variable pressure control, Easy start system
