Product Overview

Designed for Efficiency and Comfort

The Mini Tiller XG260AN is a lightweight, gasoline-powered solution designed for efficient soil preparation in home gardens and small agricultural plots. Engineered for comfort and ease of use, it features an ergonomic 110-degree handle design and a specialized easy-start engine to reduce vibration and impact. Its compact, durable construction allows for effortless maneuverability, making it an ideal tool for loosening hard soil, weeding, and preparing seedbeds.

Technical Specifications

Power Output

0.7 kW

Power

0.95 hp

Power

Engine Displacement

26 cc

Machine Weight

10.5 kg

Design & Ergonomics

Ergonomic Advantages

- 110-degree handle angle reduces operator fatigue
- Buffering torsion spring reduces starting impact
- Easy-to-use plum-shaped locking knobs
- Integrated frame support for convenient storage

Handle Angle

110 degrees

Key Features

Easy Starter, Buffering Torsion Spring, Plum-shaped Knob, Frame Support

Performance

Soil Capability

Hard Soil • Thick Soil • Seedbed Preparation • Weeding
