Product Overview

High-Performance Gasoline Pressure Washer

This gasoline-powered high-pressure washer is engineered for heavy-duty cleaning tasks, offering a robust solution for both industrial and residential environments. By utilizing a powerful gasoline engine, it eliminates the need for electrical cords, providing unmatched mobility and freedom for outdoor cleaning. The unit features a durable frame and integrated wheels, ensuring easy maneuverability across various terrains while delivering effective cleaning power for vehicles, driveways, and patios.

Technical Specifications

Engine Model	LB170AY
Engine Displacement	215 ml
Starting System	Recoil Start
Fuel Type	Unleaded Gasoline

Physical Attributes

Dimensions	82 x 44 x 50 cm
Material	Metal, Coil

Certifications & Support

Compliance	CE • ISO 9001
Support	Online support provided
