Product Overview

Professional Soil Cultivation Solution

The Gasoline Powered Rotary Tiller is a robust and efficient machine designed for versatile soil preparation and cultivation in agricultural settings. Featuring a powerful 8HP engine and rear-mounted rotary blades, it ensures deep soil turning and optimal seedbed preparation. Its ergonomic design and 95kg build weight balance professional-grade durability with ease of maneuverability.

Key Performance Metrics

Performance Highlights

8 HP

Engine Power

290 Rpm

Blade Speed

450 mm

Tilling Width

95 kg

Net Weight

Technical Specifications

| Specifications | |
|-----------------------|-----------------------|
| Engine Model | 170FB Gasoline Engine |
| Rated Power | 5.2 |
| Horse Power(HP) | 8 |
| Fuel Tank Capacity(L) | 3.6 |
| Start Mode | Recoil |
| Driving Mode | Belt+Chain |
| Gear Shifting | 1 0-1 |
| Tilling Width(mm) | 450 |
| Tilling Depth(mm) | 150-350 |
| Blade Type | 2pcs/3group |
| Tyre Type | 4.0-8 |
| Packing | Plywood |
| N.W./G.W.(kg) | 95/109 |
| Packing Size(mm) | 1150*750*450 |
