

Gasoline Powered Snow Blower

This snow blower is equipped with a 6.5 hp gasoline engine and has a working width of 56 cm. It is designed to clear snow up to 50 cm thick.

Overview

High-Efficiency Snow Removal

The GS7812 gasoline-powered snow blower is engineered for reliable performance in harsh winter conditions. Powered by a robust 6.5 HP 4-stroke engine, it features a 56 cm working width and a 50 cm intake height to clear driveways and pathways with ease. Designed for both residential and light commercial use, this unit offers flexible manual and electric start options, ensuring dependability when temperatures drop.
