

Gasoline Powered Water Pump

This gasoline water pump is designed for efficient water transfer in a variety of applications. It features a durable pump housing and robust engine for reliable operation, making it suitable for irrigation, construction, and emergency water removal.

Overview

High-Performance Gasoline Water Pump

This robust gasoline-powered water pump is engineered for efficient water transfer across a variety of demanding applications. Featuring a reliable 7HP engine and a 3-inch outlet, it delivers a powerful flow rate of up to 1000 liters per minute. Its durable construction and high suction capabilities make it an ideal solution for irrigation, construction site dewatering, and emergency water removal tasks.

Engine Specifications

Engine Power	7 HP
Engine Displacement	212 cc
Bore x Stroke	70 x 55 mm

Performance Metrics

Key Performance Metrics

1000 L/min
Max Flow Rate

28 m
Max Lift Head

7 m
Suction Depth

Outlet Diameter	3 inch
