

Gasoline Powered Water Pump for Irrigation

This portable water pump is designed for agricultural and irrigation applications. It features a gasoline-powered engine for reliable operation in remote locations.

Product Overview

High-Efficiency Irrigation Solution

This portable gasoline-powered water pump is engineered for reliable performance in agricultural and irrigation environments. Featuring a 50ml displacement engine, it offers excellent mobility and power for remote water transfer and drainage needs. Its robust construction and protective frame ensure durability and stability during intensive field operations.

Performance Metrics

Flow Rate

15 m³/h

Flow Rate

Operational Range

Metric	Value	Unit
Head	14	m
Suction Lift	8	m

Technical Specifications

Engine Displacement	50 ml
Net Weight	13 kg

Features

Primary Applications	Agricultural, Irrigation, Drainage, Water Transfer
