

Gasoline Powered Water Transfer Pump

This gasoline powered pump is designed for water transfer applications. It features a protective black frame.

Product Overview

High-Efficiency Water Transfer Solution

This gasoline-powered water transfer pump is engineered for reliable performance in demanding fluid management environments. Housed in a durable protective black frame, the unit ensures longevity and stability during operation. It is an ideal solution for professionals requiring consistent water flow for site maintenance, agricultural tasks, or general water transfer applications.

Technical Specifications

Model	WP30
Part Number	802830-4.00
Engine Code	170F/P
Production ID	GT 190929A3 01/1

Features

Power Source	Gasoline Powered
Design Features	Protective Frame, Portable, Water Transfer
