

Gasoline Powered Weed Trimmer

This gasoline-powered machine is designed for efficient weed removal and soil cultivation. It features a 42.7cc engine with a diaphragm carburetor and a 27cm cutting width.

Overview

Professional Performance Weed Trimmer

This high-efficiency gasoline-powered weed trimmer is designed for heavy-duty weed removal and soil cultivation tasks. Equipped with a robust 42.7cc engine, it delivers consistent power for demanding outdoor environments. The trimmer features a diaphragm carburetor for reliable fuel delivery and a 1.2L tank capacity, ensuring extended runtime and reduced downtime during operation.
