

General Lighting Service Bulb

This GLS bulb is designed for general illumination purposes. Its frosted glass finish diffuses light evenly, creating a soft ambient glow.

Product Overview

General Lighting Service (GLS) Bulb

The General Lighting Service (GLS) bulb features a traditional pear-shaped design with a frosted glass finish, engineered for versatile residential and commercial illumination. It utilizes a standard screw base for seamless installation into existing fixtures. The frosted glass is specifically designed to diffuse light evenly, minimizing glare and producing a soft, ambient glow suitable for indoor environments.
