

General Purpose Battery

This is a high-quality battery for general purpose use. It provides a reliable power source for various devices.

Product Overview

High-Quality General Purpose Battery

This Size D battery is designed for reliable, high-quality performance across a variety of general-purpose applications. Engineered to meet strict standards, it offers consistent energy output for your essential equipment. Ensure correct installation and handling to maintain safety and optimal longevity during operation.

Technical Specifications

Battery Model/Size	R20C / Size D / SUM-1
Nominal Voltage	1.5 V
Compliance Standard	GB/T7112-1998
Handling Precautions	Do install properly, Avoid electrolytic dissociation, Never heat

Origin

Made In	China
