

General Purpose Bristle Brush with Wooden Handle

This bristle brush features a wide, flat head with dense, dark bristles set in a light-colored wooden handle. It is designed for general purpose application, such as applying broad strokes or dusting.

Product Overview

Versatile General Purpose Brush

This general purpose bristle brush is designed for a variety of applications, featuring dense, high-quality bristles set into a durable, light-colored wooden handle. The broad, flat brush head is ideal for tasks ranging from wide-stroke applications to efficient dusting. With a convenient hanging hole in the handle and a secure metal clip, this tool is built for both performance and easy storage in professional environments.
