Product Overview

Modern Geometric Lighting

This modern LED pendant light features a sophisticated, interconnected geometric design that serves as a striking focal point for contemporary interiors. Constructed from a durable blend of aluminum and iron with a sleek matt black finish, it offers both aesthetic appeal and long-lasting performance. The integrated LED light source provides energy-efficient, ambient illumination, making it an ideal choice for dining rooms, living spaces, and entryways.

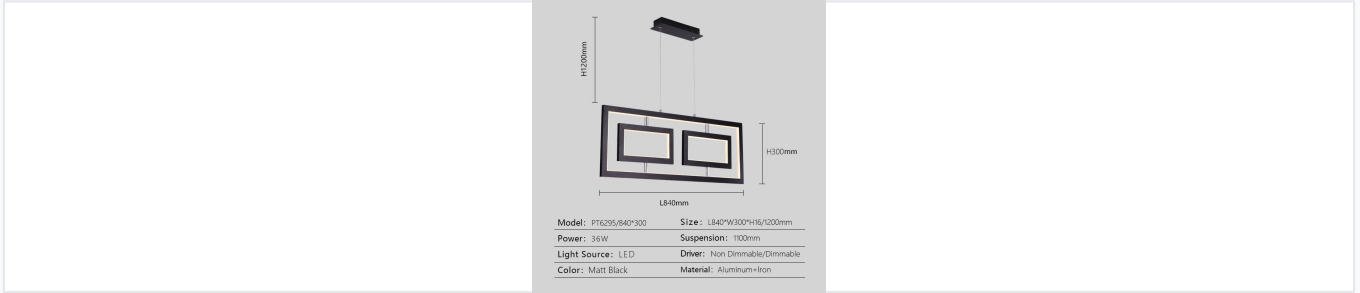

Technical Specifications

Driver Type

Non-Dimmable • Dimmable

Model Number	PT6295/840*300
Power Consumption	36 W
Voltage	110-240V
Color Temperature	3000K (Warm White)

Physical Dimensions

Technical layout showing dimensions and key specifications for the PT6295 model.

Dimensions

Dimension	Value
Length	840mm
Width	300mm
Height (Fixture)	16mm
Suspension Length	1100mm
Total Height	1200mm

Materials and Finish

Materials	Aluminum, Iron, Acrylic
Finish	Matt Black

Key Features

Features

- Adjustable suspension cable for customizable height
- Energy-efficient integrated LED light source
- Durable, scratch-resistant construction
- Floating effect design
