Product Overview

High-Performance Gigabit Connectivity

This Gigabit Ethernet SFP transceiver module is a high-performance, cost-effective solution designed for seamless connectivity in network devices such as switches, routers, and servers. Supporting data rates up to 1.25 Gbps, it utilizes a standard RJ-45 connector for easy integration with Category 5e or higher twisted-pair copper cabling. The module is fully hot-swappable, ensuring efficient upgrades and maintenance without network downtime.

Technical Specifications

Max Data Rate	1.25 Gbps
Compatible Cabling	Category 5e or higher twisted-pair copper
Maximum Reach	100 meters
Connector Type	RJ-45
Key Features	Hot-swappable, Digital Diagnostics Monitoring, MSA Compliant

Supply & Condition

Condition

Tested 100% Working • 90% New

Available Inventory	400 units
Warranty Period	90 days
