

Glass Edge Grinding Machine

This machine is designed for grinding the edges of both domestic and imported glass, including shaping and finishing. It can produce rounded edges, T-shaped sides, and duckbill edges, with customization available to meet specific customer requirements.

Overview

Precision Edge Grinding Solution

This specialized grinding equipment is designed for shaping and finishing glass, crystal handicrafts, and furniture stone. It supports various edge profiles including rounded edges, T-form sides, and duck-bill edges. Engineered for both domestic and imported grinding machines, it delivers consistent results for industrial applications.

Technical Specifications

Diameter Range

26 mm

Minimum Diameter

200 mm

Maximum Diameter

Available Grit Sizes

80#, 320#

Compatibility

Compatible Edge Profiles

- Rounded edge
- T-form side
- Duck-bill edge

Product Range

Available Wheel Types

- King Kong wheel
- Resin wheel
- 10S polishing wheel
- BK polishing wheel
- BD polishing wheel
- 905 series polishing wheel
- Diamond bit
- Polyurethane PaoGuangPian
- Crystal handicraft (diamond) pads
