

Glass Edge Grinding Wheel

This diamond grinding wheel is designed for glass edge grinding machines. It is suitable for both domestic and imported glass linear edge grinding machines and glass linear bilateral edge grinding machines.

Product Overview

High-Performance Glass Edge Grinding

These diamond-based grinding wheels are engineered for professional glass processing, compatible with both domestic and imported linear edge and bilateral edge grinding machines. Designed for efficient material removal and consistent finishing, they support a wide range of glass applications. With robust construction, these tools are built to meet the rigorous demands of industrial glass manufacturing and fabrication.

Technical Specifications

Standard Dimensions

Diameter (mm)	Width (mm)	Bore (mm)
150	8	10
150	15	10
150	12	12
150	10	8
150	15	8
162	130	13
175	15	8
175	15	10

Available Grits

80#, 320#

Compatibility & Usage

Compatible Machines

- Linear edge grinding machines
- Bilateral edge grinding machines

Applications

Optical Glass • Crystal Handicrafts • Furniture Stone
