

Glass Working Pliers Set

This set of pliers is designed for glass processing. It includes running, grozing, and nipping pliers for controlled glass breaking, smoothing edges, and removing small pieces.

Product Overview

Professional Glass Working Pliers

This comprehensive glass working pliers set is designed for precision glass processing tasks, including stained glass art, mosaic making, and general glass crafting. The set features specialized tools like adjustable running pliers with padded jaws for controlled breaking, grozing pliers for edge shaping, and nipping pliers for removing small glass fragments. Each tool is constructed from durable metal and equipped with ergonomic handles to ensure comfortable grip and precise control during intricate work.

Technical Specifications

Included Model Numbers	BLQ-9, BLQ-10, BLQ-11, BLQ-12, BLQ-13
Construction Material	Durable Metal
Handle Design	Ergonomic grip
