

Global Ocean Cargo Transportation Services

These services specialize in worldwide ocean cargo transport. They also include ship management, chartering, and agency services.

Service Overview

Professional Ocean Cargo Solutions

This service provides comprehensive worldwide ocean cargo transportation, leveraging a specialized fleet of Supramax bulk carriers. With decades of operational experience since 1992, the service combines expert ship management, efficient chartering, and professional shipping agency capabilities. The operational focus is centered on maintaining rigorous safety standards and promoting environmentally conscious maritime practices.
