Overview

Precision Linear Weighing Solutions

This granular product linear weigher is designed for the accurate and efficient handling of slice, roll, or regular-shaped products such as seeds, rice, coffee, and powdered seasonings. Built for versatility and consistency, it features multiple weighing heads to optimize throughput for various packaging applications. With adjustable parameters and robust construction, these machines help minimize product giveaway while ensuring reliable weight measurements.

Applications

Suitable Products

Sugar, Salt, Seeds, Rice, Sesame, Glutamate, Milk Powder, Coffee, Seasoning Powder

Technical Specifications

Model Comparison

Model	Heads	Range (g)	Accuracy (g)	Speed (P/M)
WP-AX1-2-1	1	20-1000	0.5-3	10-15
WP-AX2-2-2	2	50-3000	0.5-3	30
WP-AX2-2-1	2	1000-12000	1-10	25
WP-AX4-2-2	4	20-2000	0.2-2	55
WP-AX4-2-1	4	5-300	0.1-1	70

Control Features
