

Gravity-Fed Water Filter Purifier

This gravity-fed water filter purifier is designed for household use. It features a multi-stage filtration system to remove sediment, bacteria, and other contaminants.

Product Overview

Gravity-Fed Filtration System

This gravity-fed water filter and purifier is designed for reliable household use, providing a convenient way to obtain clean drinking water. The system utilizes a multi-stage filtration process to effectively remove sediment, bacteria, and various contaminants from tap water. Constructed from durable, BPA-free materials, it is easy to assemble, clean, and maintain for daily use.

Capacity & Dimensions

Top Reservoir Capacity	2.5 gallons
Purified Water Capacity	1 gallons

Filtration Technology

Filtration Layers

- Ceramic
- Activated Carbon
- Ion Exchange Resin

Construction & Design

Material Safety

BPA-Free

Maintenance

Replacement Parts	Replacement filter cartridges are readily available.
