

Gravity Feed Spray Gun

This spray gun is designed for a variety of coating applications. It features adjustable spray pattern and fluid control for precise application and a durable metal construction with a gravity-feed cup for efficient material delivery.

Product Overview

Professional Gravity Feed Spray Gun

This high-performance spray gun is engineered with a robust aluminium alloy body, ensuring durability and reliability in demanding work environments. Designed for efficiency, the gravity-feed system facilitates smooth and consistent material delivery for a variety of coating tasks. With adjustable spray patterns and fluid controls, it provides the precision required for high-quality results in automotive, woodworking, and general-purpose painting applications.

Technical Specifications

| | |
|-----------------------|-----------------|
| Construction Material | Aluminium alloy |
| Cup Capacity | 1000 cc |

Features

| | |
|----------------------|--|
| Performance Features | Gravity Feed, Adjustable Spray Pattern, Adjustable Fluid Control, Aluminium Alloy Body |
|----------------------|--|

Applications

Suitable For

- Automotive painting
- Woodworking
- General-purpose coating
