

Grease Guns for Machinery Lubrication

Grease guns are essential tools for lubricating machinery and equipment. They are available in lever-action and pistol-grip models with varying cartridge sizes and nozzle attachments.

Product Overview

Professional Machinery Lubrication Solutions

These grease guns are essential tools designed for efficient machinery and equipment maintenance across industrial, agricultural, and automotive sectors. The range includes both lever-action and pistol-grip models, providing versatility for various lubrication tasks and accessibility requirements. Built for durability and reliable performance, these tools ensure precise grease application to keep critical components running smoothly.

Technical Specifications

Available Configurations

- Lever-action grease gun
- Pistol-grip grease gun

Supported Cartridge Sizes

150g, 200g, 400g

Applications

Suitable Industries

Automotive • Industrial • Agricultural
