

# Green LED Indicator Pushbutton Switch

This is a combination device featuring a green LED indicator lamp integrated with a pushbutton switch. It is designed for use in electrical control panels and industrial automation applications.

## Overview

Specializing in production of buttons and indicators since 1997

XDL32-EV63 green illuminated pushbutton switch for control panel integration.

## Industrial Illuminated Control Switch

This high-performance illuminated pushbutton switch features an integrated green LED indicator, specifically designed for industrial control panels and automation applications. Built with a combination of durable zinc alloy and high-grade anti-flam plastic, it ensures long-term reliability in demanding electrical environments. The unit supports versatile signal control functions and complies with international safety standards, making it an ideal choice for machinery and signaling systems.

## Electrical Specifications

### Voltage Rating

**660 V**

Max AC Voltage

**400 V**

Max DC Voltage

Rated Insulation Voltage	600 V
Rated Impulse Withstanding	6 kV
Short-Circuit Protection	10A fuse (IEC269-1 / GB14048.3)

## Mechanical Characteristics

### Mechanical Life

Type	Operations
Pushbutton	3,000,000
Emergency Stop	300,000
Fastening Torque	0.8Nm (Max 1.2Nm)
Mounting Diameter	22 mm

## Environmental Ratings

### IP Rating Options

IP40 • IP54 • IP65 • IP66 • IP67 • IP68

### Temperature Range

Operating: -5°C to +55°C | Storage: -25°C to +70°C

### Relative Humidity

35% - 85% RH

## Compliance

### Certifications

CE, ISO 9001, RoHS, UL, IEC60947-5-1
