

Grey Rubber Tire with Polypropylene Rim

This grey rubber tire features a polypropylene (PP) rim. It is designed for industrial or mobility applications, with a robust and durable design.

Product Overview

Industrial Grey Rubber Tire

This grey rubber tire features a durable polypropylene (PP) rim, engineered for reliable performance in industrial and mobility applications. Its solid construction ensures longevity and stability under load. The integrated design provides a robust solution for various equipment needs.

Technical Specifications

Tire Material	Grey Rubber
Rim Material	Polypropylene (PP)
Construction	Solid
Design Features	Integrated Rim, Industrial Grade, Solid Construction
